Terms & Conditions

Membership does not guarantee access into the hot pits. Access into hot pits requires a signed waiver at RWO Registration. Access for non crew members to hot pits is at the discrimination of RWO Officials and will not exceed maximum capacity requirement, per insurance regulations. Any person who operates or in any way assists in the operation of a race boat, truck, or support equipment, whether as a driver, throttleman, navigator or active crew member, while testing or in competition, must be a member in good standing with Race World Offshore, LLC, (RWO) in addition to any person participating as an active crew i.e. owner, driver, riding or non-riding crew member, active pit crew, tow vehicle driver, mechanics, etc. I acknowledge that my email address attached to this request and verification provided on-site with a Race World Offshore, LLC registration official is correct. I understand that while participating in events sanctioned by Race World Offshore, LLC, and its assignees may use my name, picture, pictures taken of myself, of my boat, or any team assets, in any way, medium or material for promoting, advertising, recording or reporting any Race World Offshore, LLC sanctioned event before, during and after such event and do hereby relinquish all rights hereto for these purposes. I hereby agree to assume all responsibility and liability for all acts or activities of myself, my drivers, assistants and crew for any and all damages or injury that may be caused by any or all of us or by our boat, motor, properties or possessions in any way growing out of or resulting from the operation of my Race World Offshore, LLC registered boat racing equipment and/or as a result of our participating in an RWO regatta or special event during the event sanctioning period. In consideration of their promotional efforts on behalf of the sport, I hereby assign all commercial communication and broadcast rights to Race World Offshore, LLC and do declare them as my lawful agents and representatives regarding such rights. I hereby acknowledge that the activities of the event(s) are very dangerous and involve the risk of serious injury and/or death and/or property damage. No owner, driver or contestant, associate or representative thereof shall hold any other owner, driver or contestant or representative thereof liable for any personal injuries or damage resulting from an accident of racing occurring in a sanctioned race, except as a result of deliberate collision or other premeditated acts of unsportsmanlike nature. The question whether the act was deliberate or premeditated shall be determined by the DRO, subject to review by the appropriate Race World Offshore, LLC Official.

ESCAPE / EXIT PLAN

Race World Offshore, LLC will require submission of an individual written "Escape (Exit) Strategy Plan" from all race teams utilizing a canopy race boat. This completed and signed escape plan must be provided to RWO safety team before testing or racing at the first RWO event you attend each year.. The object to the escape plan is to pre-determine what specific procedures or steps the occupants will use in an emergency (fire, sinking, etc.) to safely and rapidly exit the interior cockpit of a race boat.

An Escape/Exit Strategy Plan should include the location and type of escape hatch and equipment and very specific actions or steps to be taken or followed by each racer. It shall be used to describe in writing the methods and order of the racers escape plans. The Race World Offshore Rescue / Safety team members will verify the exit plan with the racers, they can escape via a top or bottom hatch. Racers are strongly encouraged / recommended to keep their safety helmets on at all times for safety; especially after releasing their safety belts, so as not to hit their heads in the canopy or while exiting the race boat.

The bottom escape hatch or canopy door should not be opened until both racers are ready to leave the race boat. Prematurely opening the escape or canopy hatch door on an overturned race boat may dramatically reduce the time needed for Race World Offshore Rescue personnel and Angel helicopters to reach the scene of an accident and assist getting you out safely.
